

CRET 3 POLES

DRAWER CONNECTOR IP65 FOR WATERTIGHT LIGHTINGS PATENTED PRODUCT - CERTIFIED BY VDE AND LCIE

CRET 3 POLES (CONNECTOR BODY) CRET T3P P00009 904800 Packing unit 300

1- **IN THE FACTORY** : assemble beforehand the connector and make the internal wiring

2- **INSTALLATION** : slide the drawer outside the lighting and connect the 3 conductors to the electric installation

3- Insert the drawer connector inside the lighting

4- Screw the watertight nut

PURPOSE

- It allows to connect watertight lightings respecting IP65 degree of protection
- It fits to a 3 x 1.5 mm² or a 3 x 2.5 mm² rigid round cable double insulation from the electric installation

FEATURES

- Made of injection moulded insulating thermoplastic that meets the incandescent wire test requirements
- Suitable for continuous use at 105°C
- IP65 degree of protection
- It can be fixed up in a Ø 21 mm hole
- It consists of a drawer connector with a screw nut supplied with 2 seals and a quick connection terminal.
- The CRET allows you to connect a watertight lighting without pulling it apart
- Colour: light-grey
- Assembly with a watertight screw nut

CRET 5 POLES

DRAWER CONNECTOR IP65 FOR WATERTIGHT LIGHTINGS PATENTED PRODUCT - CERTIFIED BY VDE AND LCIE

CRET 5 POLES (CONNECTOR BODY) CRET T5P P00009 904900 Packing unit 300

External wiring (installation)

Watertight screw nut

PURPOSE

- It allows to connect watertight lightings to the main respecting IP65 degree of protection
- It fits to a 5 x 1.5 mm² or a 5 x 2.5 mm² rigid round cable double insulation from the electric installation

FEATURES

- Made of injection moulded insulating thermoplastic that meets the incandescent wire test requirements
- Suitable for continuous use at 105°C
- IP65 degree of protection
- It can be fixed up in a Ø 21 mm hole
- It consists of a drawer connector with a screw nut supplied with 2 seals and quick connection terminal
- The CRET allows you to connect a watertight lighting without pulling it apart
